Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claims 31 and 34 recite newly added limitations which include a sufficient number of LSPs created between an ingress and egress node such that the sufficient number of LSPs are created based on a requirement to balance the distribution of LSPs over the physical links and each LSP created is utilized by the sub-network to balance the load of packet flow through the network, wherein such limitations in combination with the limitations previously recited in the claims are not taught by the cited prior art. Claim 33 depends upon claim 31 and therefore is allowable for the same reasons discussed above regarding claim 31.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
